

## FFWPU Spain: Exposition of True Father's Centenary in Madrid with Lectures

Maryvonne Jamois  
December 17, 2020

On December 11th, we had the inauguration of the exposition of True Father's centenary with a public lecture "As a peace-loving global citizen " given by Armando Lozano, explaining some points of his autobiography and what has been his motivation throughout his entire life. A few guests came some friends and some new people.

We distributed around 2500 posters in the streets of Madrid.

We organized a second lecture on December 17th, given by Manuel Campillo. A person from Angola whose parents are from FFWPU and living in Lisboa saw the advertisement in the street and came. He is a very strong Christian.

Another person who has been participating in Carp Convention in London in 1990, also participated in the lecture.

We are very grateful for this opportunity finally at the end of the year to be able to show True Father's life in the city of Madrid and we hope that even though they did not come, some people maybe attracted by His life and works.
