

Peace Road 2021 Project in Spain, A Vertical Peace Road - Three Activities

Maryvonne Jamois

October 17, 2021

This year in Spain, because of the restrictions of COVID 19, it was not so easy to organize the Peace Road Project in our country.

Finally, we could organize 3 activities, possible thanks to the initiative of our brothers and sisters. The first one on September 13th was the climbing of a Mystical Mountain in the north of Spain, the region of Asturias, of 2.519 meters. It was a great challenge as it can only be climbed in a professional way. We are very proud of our brother and sister who reach the mountain peak.

The second activity on October 3rd was to climb a mountain in the area of Avila, the land of Santa Teresa de Jesus, Spanish mystic of XVI century in Spain, with the participation of 2nd and 3rd generations. This mountain is situated in Sierra de Gredos, Avila, and is called Los Galayos.

And the third Project was in the area of Barcelona, On October 17th the community went climbing a mountain in the Montseny mountains. We were grateful for the nice weather and enjoy in the family the nature that Heavenly Parent gave to us. Some guests joined us when we took the pictures.

Thank you to all who have been participating in this effort of Peace Road as an offering to True Mother for the pacific reunification of Korea.
