

HARP Spain's 5 Day Workshop in El Manantial del Corazón Workshop in Madrid

Maryvonne Jamois

April 15, 2022

HARP Spain organized a five days workshop in Madrid, in El Manantial del Corazón WS center [April 9 - 15]. The motto was "Nobody said it would be easy, but it would be worth it". Through the different lectures, activities, and testimonies, the participants gained insights into True Father's life, the value of the family, purity, and unification church tradition.

Each day there were three short lectures in the morning, followed by team discussions. And the second part of the day was filled with sports and other activities. There was a day focused on a pure lifestyle, with an evening where brothers on one side and sisters on the other had time to bond together. There was also a prayer night, a 21-minute period for personal prayer, and a campfire.

The last two days were filled with adventures. One day the participants participated in a Gymkana around Madrid city, and on the second day they went to the mountains for an excursion. And they stayed in a camping area for the night.
