

# 2nd Anniversary of True Father's Universal Seong Hwa

Budapest, Hungary, 7. September 2014

The Hungarian movement held a public event in memory of True Father's 2<sup>nd</sup> anniversary of his Universal Seong Hwa. Last year we had a similar event, so felt it is a good to continue and establish a tradition. FFWPU and UPF in collaboration organized and carried out the event. Ambassadors for Peace, members of Family Federation, friends and guests attended the event.

Prof. Erno Lazarovits' shared his testimony about his experiences with True Father and another Ambassador for Peace was reading the "Crown of Glory". Some part of the musical performances was provided by the NGO of one Ambassador for Peace. Our 2nd Generation children were singing the CIG anthem in the beginning. We were sharing testimonies from members how they experienced True Father. A 12 minutes video was shown with

Hungarian subtitles introducing True Parents' activities in the USA and their efforts for uniting the religious fields for the sake of World Peace. Then I was reading True Mother's speech from August 12, given at the World Peace Centre.

The feedbacks we received from the event were very positive. The Ambassadors for Peace liked the content and guests were impressed about our second generation. Especially the movie and the testimonies about Father's life during his imprisonment and his poem touched the heart of many!!

We hope that through this small offering we could bring some comfort and hope to Heavenly Parent and to the True Parents of HEH as well.
