## Serving the elder People:

In Kaposvar City already in two institutions where elder people are living our members are regularly organizing lectures and programs. The local government has not so much to offer and take care for those people and the director of this institution is very happy that our members try to support and take care of them.

## Life in our Communities:

- In our Church Centers the blessed families and members celebrated the True Children's Day and the Nation of Unified Heaven and Earth
- Each Wednesday and before Sunday Service there are groups who come together and started to learn Korean language. One brother who studied Korean at SMM University and one sister who take care of this courses.
- Quite a lot Blessed Families and members ordered the new CSG and they are very grateful to True Mother for this beautiful set of books!!
- 22<sup>nd</sup> of November we held a National level leaders meeting where we studied the main points of True Mother's speeches from 26<sup>th</sup> and 27<sup>th</sup> of October. Same time we reminded ourselves that why is important to attend the Abel's line in the age of CIG. And we need to show example in witnessing and qualify ourselves in love front of the members and the society and this will be the base for God to trust us and send us more people.
