Day of All True Things:

5th of June in the Peace Embassy blessed families and members of Budapest Community came together to celebrate one of our CIG National Holy Day established by our beloved True Parents. The National Leader Mr. Tibor Krebsz gave a sermon titled: "Where are you?" He reminded the congregation that the Creation is longing for the true sons and daughters of God. All Adams need to turn back to their original desire which is longing for God. To move into our God's given position. Also the sermon was showing what kind of father's models we can find in society and what kind of father's models we can see in the Providence. Also study the life course of True Parents how they became victorious in the man/woman relationship. All women and all children and all creation is still longing for the true Adams. And all Adams are still longing to reach the "Tree of Life".
