

ACTIVITY REPORT OF HUNGARIAN FAMILY

Summer 2016

Heavenly Amnesty for CIG citizens offered by True Parents, the CIG King and Queen:

In order to prepare our Communities and Families to receive the forgiveness and special grace from True Parents we organized three times 1 day seminar in the last months. The Seminar included four lectures, the Principles of Creation, the Principles of Restoration, The Formula Course to restore a nation and the Cross of True Love. The lectures were “updated” by the CIG speeches of True Parents and the last lecture were focusing on God, Jesus and True Parents’ life. Based on the reflections several members expressed their gratitude to God and True Parents that they never gave up us and always want to save us from sin and restore us to the ideal. And they gave us again the chance to make a new start and occupy again the position of central history.

Holy Wine ceremonies were officiated by the City Leaders and in the coming months still we plan to organize a 1 day Seminar and Holy Wine ceremony to those who could not participate yet. Also we distributed the Four Holy Items to the Families and members as well. We continue to reach out and inform the members about True Parents’ calling.

True Father's 4th Seonghwa Anniversary:

Joining to True Mother and the HJ Festival in Korea many Blessed Families and members gathered in our Peace Embassy, in Budapest to express our love and gratitude to our beloved True Father. As part of the event members, friends and blessed families offered flowers to True Father. Afterword we watched some part of the program which was offered at CWPC and we watched True Mother's address as well. After the event brothers and sisters staid together for talks and sharing a meal.

PEACE ROAD 2016:

At three different locations and time we could organize and join to the PEACE ROAD 2016. In the mountain area of Bakony, group of people, guests and members offered ca. 30 km walking to express their support of the purpose of PR 2016. In Kaposvar City members and friends joined together and were running 10 km while others were walking the distance. In Budapest families and some of our AFP, friends joined to our peace marching to bring the public attention to the reunification of Korean peninsula and the establishment of UN Office in Korea. When the Peace Marching ended in Budapest, the participants gathered at the Holy Ground of our Church and still spend time together for sharing and have fun together.

Divine Principle Education:

In the last two months there were two Divine Principle seminars for our new guests. One of the Seminar was held in New York, supported and halfway sponsored by FFWPU-USA members. Rev. Schanker gave DP lectures and other elders as well to our Hungarian delegation and as part of the WS they could meet one member of the True Family, In Jin Moon. She spoke very nicely about True Parents and testified her parents as the returning Messiah.

The Blessed Families living in Szigetszentmiklós continued to organize Divine Principle lecture in the Town Library, this time the Fall of Man was presented to the guests. The Gyor community also continues to organize DP lectures in their center and beside of the lectures they also organize cultural programs as well to the guests to help them to feel loving environment and community around themselves.

Chil Il Jeol and Chil Pal Jeol:

According the Heavenly Calendar we celebrated the CIG National Holy Days in our Communities. The National Leader was reminding us through his sermon that our Heavenly Parent and True Parents would like to settle and have a Sabbath and rest in our families and couples forever. God did not have home

because God lost his/her body by the fall of Adam and Eve. In the first time in the providence God could find home in True Parents. To bring this victory and extend it according True Father's word, True Parents could not follow any of their personal desires and wishes until the proclamation of 7.1 jeol and 7.8 jeol.

IL-SHIM PLEDGES:

End of July few blessed children offered their purity pledge in front of God, True Parents and their family members. The children and one of their parents studied together the IL-SHIM education program through a weekend seminar organized by our HU-BFD leaders, the Zahora couple and as a conclusion of the WS the children did the Il-Shim pledge.

Blessed Children education:

During this summer there were two main event for our children here in Hungary. There was a summer camp for 6-13 years old children. The motto for the camp was: „2 in 1= Everything is all right”. We wanted to support our blessed children to understand why our True Mother proclaimed that from now

on we need to attend God as our Heavenly Parent. Through lectures, games and other activities we wanted to help the children to understand God's dual characteristics and more deeply realize that God is heavenly Father and heavenly Mother as well in the same time. So God is 2 in 1.

The other event was organized by the HU-HARP, HARP WS in our Training Center. The WS motto was: God's dream. 30 children who are over 14 attended this Seminar from 20-24th of August. The elder blessed children and some of our blessed parents gave lectures about the 3 blessings, how to develop the personality, the children heard testimonies and offered service project as well. The children had time for prayers, sharing heart to heart and enjoy fun together. During the WS the HARP leadership also evaluated the proposals offered by the children for new HU-HARP logo. And finally they had selected the best one and prepared a new HARP T-shirts for all the participants☺

21 years were offered:

Two years ago when the 30.000 couples finished their 21 years course, that time we congratulated them and celebrated their dedication here. We decided that when the coming up blessing generations will also complete their special course then we will offer it again to God and True Parents. So the 95's blessed couples could also finish the 21 years blessing course at 25th of August. On the City levels we recognized those precious couples who did not give it up but kept their faith, love and commitment to God, True Parents and of course to each other. We wish that their examples will be followed by the coming up groups and for the blessed children who will also start some day their „Jacob course” as well.
