One of the AFP was offering with her friends a musical entertainment. As part of the program two new AFPs were appointed as well. All together 30 people attended the event.

## Divine Principle Education – Public lectures:

Basically in all Church Communities the brothers and sisters regularly organized Divine Principle lectures. The lectures are given in the church centers or outside in rented places on a local areas. Since we know that True Mother is coming to Europe the Budapest Community started to organize a kind of serial lectures to introduce this coming up event and the activities of True Parents.

### Taking care of Youth and Children:

During this time period there were two important programs organized to our children and youth. One was **the Purity Seminar**. The children and their parents studied together about the purity from the Divine Principle point of view. Beside of the lectures there were sharing, testimonies and of course the closing moments were the offering of Purity Pledge and the ring ceremony.

The second event was a **HARP – Day**. The main focus was on self-confidence, how to develop and utilize it and for which purpose. Games, discussions also offered a platform for the Youth to express their experiences concerning self-confidence and learn from each other.

### Seminars to support the Blessed Families:

On national level we continue to offer a serial of 40 day cheonsong conditions mainly focusing to breakthrough in HTM and blessing providence. To realize this goal we started to organize **Seminars on Tribal Messiahsip**. As part of the Seminar we were reading the Cheong Seong Gyeong and study together the words of True Parents. The topics were selected from CSG by our National Leader, like: why we could not develop as we wanted, what is the witnessing, attendance, worship, mobilization of spirit world, right attitude of taking care for people, God's heart...After reading comments, discussion, and internal guidance was given. After lunch time the participants were divided in pairs and they were trained in Q and A sessions. What and how they would react and answer during witnessing and how to approach people, different people have different level of understandings. The last part of the Seminar the participants based on their reflections wrote down what they need in order to reach their HTM goals.

We invited a specialist, who established his NGO so called **Father's Academy** to support the Fathers and encourage them **to find their roles** in partnership, family and in the public life. Through this Seminar not only the brothers but the sisters could have also more insights about fatherhood. In small groups several topics were discussed and sharing our experiences: What is the reason if the man get distance or passive towards public life or domestic work and children education, What does it mean to be good father, How to heal the relationship between man and women, How to respect each other and have loving communication, Consequences of divorce in children's character, How was the family at 1918 and today in 2018 and many other....

The National Leader attended in person this time in **Korea the CIG commemorative events**. Since he is back he shared and spoke to membership one of the **Sunday service and on 1day Seminar** as well in order to have possibility to connect more deeply and share the insights with the Hungarian membership. Who could not come to the Seminar they could connect through internet. These gatherings were good kick off to focus more and prepare to welcome True Mother in Vienna.

### Cultural programs, events to create witnessing environment:

Using the occasion of the New Year of Lunar Calendar, the Debrecen Community organized a **Korean Cultural afternoon**. They invited a Korean dance group which introduced traditional dance. The guests could get a general view about the Korean traditions, and they could taste Korean food as well. Mr. Gyorgy Kozma who was the main engine for this event, studied in Sun Moon University and that time he could learn a lot about Korea and its culture. The local City newspaper reported very nicely about this event.

Our National Leader in his opening address was encouraging the audience to find a special view on life just as the photographers do.
