We held a workshop for Heavenly Tribal Messiahship leaders in Malaysia from October 14 to 16th 2016 in our Peace Embassy. We had 53 participants including 2 overseas from Cambodia who attended this workshop to understand and later bring this the strategy in their own area.

Participants warmly received Prof. Gil Young Hwan, IW for Education of FFWPU-Asia, who lead everyone on how to strategize home group in each country.

The success of other nations in building a successful tribal messiah activities was an encouragement through strengthening our education and inheriting other countries strategy to establish True Parents dream.

Participants willingly promised to offer all their best going beyond limitations to give birth to others through witnessing. In this workshop, they felt the reincarnation within as they gave their testimony at the end of workshop.
