

2nd Pathways to a Sustainable Future: Day 15

Minoru Nakata
July 18, 2016

Today was our last full day all together before we depart our ways to our homes. We all started the day writing a letter to ourselves which will be randomly mailed to us in the future. The morning was spent visiting the Vice President of the country and presenting him with one of our taro T-shirts. The specific service projects that the youth was involved with were reported to the Vice President. Later the group took a trip to the ABC media group to be interviewed by the largest media outlet of the country. The afternoon helped all of us conclude the program with a rose exchange activity to share our appreciation to each person and then a graduation ceremony.

This was an amazing and unforgettable experience for us all! We each learned a lot about each other, about ourselves, and about Paraguay!

Thank you for everyone's love and support!
