

WFWP Portugal One Day Seminar

Lisbon, Portugal, 27. July 2013

This one day seminar was organized by WFWP to stimulate some of our women Peace Ambassadors to engage them into some responsibilities and prepare them to teach some lecture material related to WFWP.

The program consisted in a welcoming address and intervention of the president of WFWP in Portugal Dr. Marta Rodrigues, followed by a tribute made to True Father on his life dedicated to peace, made by one of our senior members Dr. Liberto Silva. One intervention was made by an Ambassador for Peace (“Love is the Key”) and another by one new guest invited as speaker with the theme “The power of the Word”. We finished the speakers with one brother speaking about “Universal Values, the importance of Character Education”.

In the evening we had two very nice activities, fitness and a ceremony of brotherhood. The environment was very good and joyful and the contents given were very inspiring. All the speakers gave a very interesting insight about the need of love in human’s society.

Six new Ambassadors for Peace awards were given. Some of them shared about their admiration for our movement and wanting to take part in more activities. We finished the seminar, hand in hand, singing the song “Heal the World” from Michael Jackson

Greetings from Portugal Family.

Sérgio Neto
