

Summer HARP Workshop "Let Us Inherit True Parents' Example"

Lisbon, Portugal, 2. - 6. July 2014

The Portugal HARP with members between 12 and 18 years old and children from the Sunday school between 6 and 11 years old gathered to hold a summer camp.

With the help of many brothers and sisters who are always ready to offer their precious support, we created a wonderful family environment, make food and take care of our young members. Second generation brothers and sisters contributed their ideas to the program which helped so much to make this workshop a success.

A total of 33 young people participated. We wanted to share and educate by example, trying to practice

the words of our True Parents through HDK, at conferences, not forgetting to have fun on the beach by playing games to make deeper unity among us.

At the end of the workshop it is good to hear that participants expressed their deep desire to have such a workshop again and to try to improve.
