

Annual 2 Day Workshop for Blessed Families

Lisbon, Portugal, 6. – 7. September 2014

The past weekend we held the yearly WS for blessed families and members. We welcomed 40 adults and 10 children. People came from all over Portugal, representing also Porto and Lousada community. The WS lasted 2 days and the lectures were presented by different brothers. We heard about relationship within blessed family, Creationism vs. Evolution, personal testimonies about developing business and selling True Fathers autobiography, etc. The different kinds of presentation maintained our curiosity alert and our spirit high. Meeting people after so long time also contributed to the spirit of the WS.

We had a roundtable or brainstorming about various themes as witnessing, tribal messiahship, developing the community, second generation.

We had two groups and communicated in the end the ideas and propositions. Of course the hard part comes now, to practice and bring result, but it was a very good start.

In the end each could receive a holy candle and holy salt as well as witnessing materials. Also we invested in the good time, we watched the movie Winter Tale and had very good meals. Altogether was a very nice experience and a great occasion to make unity as a family.

Thank You, all the best to all ITPN.
