

# Annual Workshop for Blessed Couples

Lisbon, Portugal, 12. - 13. September 2015

*By Sergio Neto*

After the return from the Top Gun Workshop and the celebrations of the 3<sup>rd</sup> Anniversary of True Father's Ascension in Korea, our national leader organized a weekend for the blessed families of Portugal. We could meet to revive our spirit and make a new determination for the development of our goals for the Vision 2020.

Forty members gathered at the national headquarters, including children we

have been 52 participants. During the two days of our workshop, we lived together as one body and spirit under our True Parents' love and guidance. All the meals and accommodation have been paid by the headquarters.

Surrounded by a lot of good energy and high motivation, we created a fabulous atmosphere. Our national leader shared in depth about his experience in Korea and the guidance given by True Mother.

We showed educational videos and videos about recent activities around

the world. Testimonies were given by members responsible for WFWP, UPF, Witnessing and by members who have been successful in distributing True Father's autobiography and Tribal Messiahship work. Divine Principle lectures have been included as well.

We are looking forward with much hope. We all pledged to practice all the policies towards the realization of the Vision 2020.
