

Honouring our Ancestors

Lisbon, Portugal, 2. November 2015

In Portugal we have a tradition of honouring and remembering our ancestors each year at the time of "Day of All Saints" on November 1st and 2nd. We are visiting cemeteries to place flowers on the graves.

Since a couple of years we then meet at our church to have a celebration with an offering table, photos of our

ancestors and food to offer in memory of them. This year we had the special privilege to celebrate together with the special Em issaries Dr No-hi Pak and Dr Lan-y oung Moon, who were send by True Parents to Europe.

They shared with us their deep testimonies that moved us all. We

finished the celebration with a splendid lunch and family sharing.

The special Em issaries visited families at their homes and our centre in Porto where they delivered messages from our beloved True Parents. We had a wonderful time together with them.

Thank you very much to both of them. Sérgio Neto
