

WFWP Italy - Women of Faith: Spiritual Diversity from a Female Perspective

Elisabetta Nistri
February 25, 2020

This conference was organised by Raffaella di Marzio, AoP, President of LIREC (freedom of religion and belief).

Elisabetta Nistri, WFWP President, was invited to share her experience as a woman of faith from a feminine perspective. However, because of the COVID-19 emergency, the meeting was cancelled the day before -- but the senator had the desire to invite us to a coffee shop to share our ideas and projects to be realised as soon as possible. A nice idea came up to publish a book with our speeches after the conference.
