March 20, 2020

Due to the COVID-19 emergency, the WFWP Board of Directors wondered how to help and contribute to the needs of the territory.

On March 16, it was therefore decided to donate 1000 euro in support of a project to relieve the hospitals and host the patients who have been discharged from the hospital and who have to make a period of convalescence without being able to be hosted by their families.

On March 20, this act of generosity was reported in the major local newspaper L'ECO DI BERGAMO.
