Dear brothers and sisters,

Thank you for your many kinds of support for True Parents' work in our USA: attendance, offerings of time, heart, unity and donations!

True Mother was warmly received by the audience at Nassau Veterans Memorial Coliseum and her message was direct and powerful. Her succinct history of the preparation of Israel, along with her explanation of the life and meaning of the death of Jesus was excellent preparation for introducing the Only Begotten Daughter. Also moving was the point that the European failure to embody the Word was underscored by the unchristian expansion of slavery. Many of us were so moved when she described the motivation of TP's coming America as firefighters and then, proclaiming the era of Hyo Jeong culture.

I am so grateful that each Blessed Family in our Southeastern Subregion is sincerely working to restore families and communities. We are proud to be working with you and grateful for the love and commitment that you exhibit as one family under God. You are moving examples of "Living for the Sake of Others" and we are so grateful to you! Our Heavenly Parent and True Parents are even more grateful for your devotion!
