The mother and daughter game competition made their bonding closer to each other. One of the children reflected that from now on I want to become the daughter who will listen to my parents and become the best at school as well. Another participant says that "I wanted to grow as filial daughter that God and my parents will be proud of."

Everyone enjoyed dancing, singing, participated in games, prizes, that inspires and creates a competitive spirit for both parent and children. Finally, all the participants determined to becoming filial sons and daughters of Heavenly Parent and True Parents.
