

Activities of FFWPU, Albania

During this month, members and guest together, organized a campaign of collecting clothes and funds for supporting two poor families in a village. Some of the money we collected was used to buy some and on March 19th we gave all the food and clothes to these families.

They were very happy, and they were touched because someone is thinking about them. But in the same time this experience touched all the hearts of members and guests.

March 8th 2016, International Day of Women, we organized an activity in our center with the topic: "Let's make happy our mothers!"

In this activity participated 54 people, 15 of them were mothers. We had a short speech about the love and importance of mothers, and how much special they are for us. We shared a video about the same topic, and in the same time we had prepared songs and poetry. We could see tears in the eyes of mothers, and they couldn't do anything but to embrace us.

Afterwards we danced and sang together as one big family and gave beautiful bouquets of flowers to our dear mothers.

During this week organized 1 day workshop for the one who were already members and for the ones who just received Second Coming lecture. 12 people participated in this workshop. We gave 4 lectures and a short video about True Mother, which touched the participants. The content of lectures was about True Parents tradition, the importance of following this tradition, the importance of the age we are living, and the how crucial is my responsibility in my life. We organized a question – answer session as well.

We are very grateful to Heavenly Parent for giving us the opportunity of growing day by day.
