

Essay Competition in Albanian City of Vlorë

Gani Rroshi - May 2, 2019

High school students in the city of Vlorë participated in an essay competition, organized by UPE of Albania, which was inspired by the autobiography of True Father.

This competition was held with the strong support of the chairwoman of the Local Peace Council and with the cooperation of the University of Vlorë.

Students who had been recommended by their teachers were asked to read the autobiography and then to write an essay based on the contents of the book or on True Father's life experiences.

It is amazing to see young students be inspired by the life of our True Parents and to choose True Parents as a role model for their own future.
