

## Workshop for the Victory of the Heavenly Tribal Messiah, Home Group in Brazil

Koichi Sasaki  
October 11, 2015

**FFWPU Brazil:** We hold the training workshop for victory in the Heavenly Tribal Messiah, Home Group, One-on-One and Oikos in our headquarters, on October 10th and 11th, 2015. We had 200 participants including states' pastor, missionaries, Home Group leaders and members in general. It was a very inspiring workshop and a revival for all the participants

We began with a section of holy songs that inspired and touched the participants, preparing the environment for the words that they were going to receive. The main speaker was the National President Koichi Sasaki who gave emphasis on "how can we succeed in our holy mission of Heavenly Tribal Messiah by achieving your Weekly Goals at the Home Group and practicing Oikos which is the witnessing through our lives attracting people who we are in contact every day by love." We also had several testimonies of brothers who are achieving victories in their missions through the Home Group, One-on-One and Oikos. Through the dynamic moments of joy and interaction with the trainees in the Question and Answer sessions and fun competitions, we created a joyful environment where everyone could open their hearts.

Those who were present there responded well to the workshop purpose and awakened to the need to practice the Oikos, where through attracting those people who we are daily speaking and living with, our love can grow and this is essential to the victory in the Heavenly Messiah Tribal and the in Vision 2020 in Brazil.
