April 30, 2017

We held our home group meeting on April 30, 2017, in Liberdade CARP Center, in São Paulo, based on a team work of three university's home groups: Só Amor, Holy Group and Just Do it. Thirty-five university students including nine new guests participated in this event.

In the beginning session of this event, they had icebreaker games among all the participants and competition games among three Home Groups. Through those activities, they created fun and shared such good time from the beginning.

One CARP student from São Paulo University gave the main speech with the theme, "Overcoming the negative aspects of the human personality", pointing out that all the problems in our world begin from the contradiction of the human nature and showing the solution from the internal viewpoint. The contents of that speech attracted all the participants' attention.

At the end of the event, participants enjoyed fellowship time with food and karaoke. They felt Heavenly Parent and True Parents' love in such happy and harmonious environment.
