

## FFWPU Brazil: Blessing Preparation Education Seminar for the 2nd Generation

Koichi Sasaki  
January 14, 2024

A Blessing Preparation Education Seminar for the 2nd Generation was held with content on the True Parents' Life Course, the Meaning and Value of the Blessing, and the identity, formula course, and Public life of the 2nd Generation. The Seminar was in person and broadcast to local churches where young people could participate in person.

We had an excellent seminar with very deep content regarding the essence of providence, about the life course of True Country, divided into 9 lectures, which were taught by pastor Hideo Matsuura, who leads district 3 in Brazil. His moving words and tears deeply touched the hearts of young people because they were transmitted with great sincerity, as a channel from God, with the desire to comfort God's heart to save humanity. The theme of the Blessing also aroused curiosity and interest among the participants, who remained very attentive during the conference.

The lectures such as Identity, formula course, and importance of public life were wonderful! The content given by our young UPA graduates which was a very inspiring and unprecedented lecture. The young people were captivated and motivated when they listened to the talks, awakening their pride in being children of Heavenly Parents and True Parents.

In general, all the content served to strengthen the identity of the 2nd Generation as children of True Parents, inspiring everyone to live the tradition of True Parents, of living a public life as blessed families.

Very grateful for the Blessings received by our second-generation children. Thank you, True Mother!!
