

46 years ago, I moved with our One-World-Crusade Team to Hamelin, Germany

Its already 46 years when on an early October morning I moved with our One-World-Crusade Team into the legendary town of Hamelin in Germany.

We sold the first Chapter of DP on Main-street for 5 DM.

It took only a little time till some local Clergy rang the Alarm bell at the Police-Dept and we were stopped and asked to leave after less than an hour.

Why? - well, Christianity then interpreted any "One World Organization" with suspicion and slapped us with the "Mark of the Beast".

The real threat of course lurked not far from here at the border to the DDR, a client state of the USSR and it was Communism that should have been seen as that "One World without God" threat - the embodiment of the anti-Christ-movement.

The Pied-Piper is understood as the prototype Leader that leads people astray and that particularly aims for your Children. Today this should be a major concern for all parents as many teachers have joined the bandwagon of "Globalism".

We must not be fooled by their Idealism for a united world. Since at the core of Globalism is the anti-God and Religion ideology of Socialism, they represent an imitation of God's Ideal. Just due to their lack of understanding God and His ideals, theirs would be a World Order without God - Caution, Caution....

Can we change them? - we must ! - but how...?

Meanwhile we must save our Children, especially those in High School and College....
