Materials and medium used, (Video, Books, PPT, Website): manual, workbook, website.

Program Objective: Learn to apply the 7 Core principles of CARP.

Features:

Active listening exercises

interactive and facilitated activities

life coaching (This is an optional service helping answer questions about dealing with obstacles and struggles)

**Reason for recommending this program:**

This program teaches practical steps to apply the teachings of the Divine Principle. It is a facilitated program where you can track your daily progress. You don't just learn the Divine Principle intellectually but learn to apply it immediately and directly in your daily life. This program is guest friendly and can be a great witnessing tool.

Result/Effectiveness:

9 different CARP chapters in America, can be tracked through UP Points, learn to lead a better life and impact our communities. (Explanation for UP points can be found on the website.)

Approx. cost for running the program:

No information given, but there is the cost for a site administrator, cost for hiring a life coach (but it is not required for every session), and cost of materials used.
