Participants who attended our recent Special Grace Ceremony shared:

“I feel a lot better having done the ceremony. I noticed I want to reach out to people around me and to people I have wanted to reach for so long. Self-pity has to go! We have to make more effort to reach out and approach people. I am in a soul searching process and shedding tears repenting for the lack of doing anything with my life. We need to go out and do something! Not just talk about it!” – Elizabeth Kayadu

“Conditions are hard for me to commit to doing, but this time when True Mother asked us to make the 40-day study condition, my wife and I determined to do it. With my wife’s help and encouragement, we fulfilled the condition. Upon this foundation and with prayer, we reached the time of the Holy Wine Ceremony. On the day of the ceremony, I woke up early with a deep realization and understanding of True Mother’s message as the Only Begotten Daughter of God. It was with deep repentance and gratitude that I could receive the forgiveness and new beginning of the Holy Wine Ceremony.” – George Brewer
