

Sermon and Lecture- Training Seminar

Seebenstein, Austria, from 29th to 30th of March 2014

We had a very successful sermon and lecture practice seminar in Seebenstein, Austria with twenty participants of different generations. Heinz Krcek, a former Catholic priest, theologian and blessed member gave us excellent instructions for giving sermons.

The lecture training was very uplifting for everyone. The positive feedback and the sharing of ideas and inspirations created a quite vivid atmosphere. Especially the participation of our young generation filled us with great joy. We can recognize the wonderful potential of our young people.

Here are some excerpts of the reflections:

“It was very impressive to experience the positive development of the lecture trainees from session to session...

The DP lectures were a strong encouragement to study the principles more intensively again.“

„Some amazing talents were standing out especially among the second generation...”

„Also the brother-sister relationships between the different generations could improve noticeably – in His (God’s) sustainable (eternal) way.“

„This was very inspiring for me. I could hear many excellent lectures and experience many stimulating conversations with other participants.”

„ It is desirable to establish these lecture practice seminars as a tradition and hold them on a regular base.”
