

The first meeting of HARP in Tallinn, Estonia

Olga Martinson
August 24, 2019

Second generation older children, high school students, having returned inspired after the seminar in Latvia, decided to meet and discuss the possibilities: what they can do for the younger children and how they can grow and develop themselves through fundraising and witnessing programs.

As a result, the children became more active and creative, and inspired other older children who had not been attending Sunday school programs for a long time.
