

## Letter to True Mother from Taoyuan Church in Taiwan

Li-chun Wang

January 20, 2025

Presented to True during the Cheon Shim Won Vigil Prayer on January 20, 2025

Dear Beloved True Parents of heaven, earth, and humankind,

This letter is to report on the witnessing, education, and ministry of the Taoyuan Church.

Through the past seven months of witnessing and the monthly three-day Divine Principle workshops, we have met 19 new guests who were guided by Heavenly Parent. These guests are students at Chung Yuan University and Central University, which are two prestigious universities in Taiwan, and young adults who have already started their professional lives.

We felt that we needed to develop an education course for the new members that is centred on spirit and truth, and a life of faith and practice, as True Mother hoped. So we redesigned the post-Divine Principles course, which has resulted in 16 new members since April last year.

Seven of the new members, young adults, participated in a blessing retreat organised by the Taiwan Association in the last week of December. We are sincerely sorry that our results were so inadequate in the face of True Mother's love and sincerity to save all mankind. Nevertheless, we are sincerely grateful that True Parents, who cherish and save each and every one of their children, accepted the souls of the young adults with tears of gratitude.

We hope that one day these new members will be able to meet True Mother in person, and we will continue to work hard to make that happen. We also continue to do visitation activities to reactivate the inactive second generation members. One inactive second generation has been through many painful situations and has developed some unhealthy habits.

We visited his home, tidied up his room, and listened to his story in detail. Today, this young man comes to church every day to study, pray, and devote himself to a new start. Visiting inactive second generation members gave me the deepest sense of True Parents' being and heart.

Whenever I meet second generation who have been out of the church for seven, ten, or more years, and hear about the many pains and hurts they carry deep within their hearts, I repeatedly make an internal resolution within myself. I vow to never stop walking this path until all the young second generation are restored.

I sincerely thank True Mother for her hard work for the Cheon Won Gung entrance ceremony. We will work harder in the church to witness more people and to visit the inactive first and second generation members.

Beyond nurturing young students so that they can grow and mature and receive the Blessing, we want to transform Taoyuan Church into a healthy church that embodies the culture of filial piety in Cheon Il Guk.

True Mother, we sincerely thank you for your love and sacrifice. We pray for your health and well-being.
