

True Mother's words at Madison Square Garden were appreciated and liberating

Joy Sigur-Ramza
July 15, 2017

True Mother's words were greatly appreciated and liberating. Her message and presence encouraged me as a mother and grandmother to trust in the power that dwells in me.

I returned on the bus with Pastor Sagisaka of Chicago Family Church. Filled in the spirit of joy, the urgency of your historical message reminded me of the "Freedom Riders" movement in the 1960's. Sharing my Emancipation Proclamation message with those present, I felt that we too were on a mission to be Riders for Peace and building Family in America today. Many heard True Mother's message. Some will remember it and share. Then, there are those, like myself, who will place it in our hearts, live and create a culture of peace in our family and community, as best we can. To me, True Parents are the Living word of God in America.

True Mother's presence has increased my hope for America and encouraged a greater expectation.
