One teacher, who had participated in the blessing ceremony in Kinshasa a few months ago, went to his workstation 120 km from Kinshasa and mobilized a blessing ceremony for his colleagues and friends at the village.

On December 18, 2016, our pastors went to this well-known village, which is called LUZUMU, because of its former high security prison.

We educated and blessed 42 couples who began their 40-day separation period. Through this experience, we realized that every moment is fertile to spread the blessing around us, as we say every day in the family pledge.
