

Turkey has captured my heart

Harald Unger
May 1976

Modern Istanbul, Turkey

Turkey has captured my heart.

Each day I feel in a new way God's heart.

I'm sure others have expressed better than I can what we are experiencing.

I could never understand some things in America that I can here.

You are doing the greatest thing in history there in America.

I can say that God is so afraid and so anxious and agonized for the people of our countries and truly as Rev. Moon has been saying and saying, the only hope is America.
