March 23, 2024

A diverse, international community
of faith working towards a more
peaceful world through loving families.

"I always loved March 21, always looked forward to it because as the start of spring it carried the promise of the most beautiful season - warm days, sprouting life everywhere, a colorful beauty & fragrance all around - but never knew that HP would choose such a special day for such a special person to call him home - therefore this day has now an even deeper meaning for me & our family! We are eternally grateful for a wonderful life we were allowed to build - it deeply aches our hearts to feel the physical void in our home, but it all has heaven's fingerprints - and we only wish papa Karl an eternal, heavenly spring in the new realm of life! Our most heartfelt thanks to our loving community - all the calls, visits, flowers, delicious meals, et al. took away the edges of those challenging days - our sincere love & thanks to all!"
