November 23, 2018

On November 23, 2018, we held a family festival with 120 participants for declaration of heavenly tribal messiah in Bolivia.

Rev. Yung Mun Lee with his wife Yuri Nagatani continue to give blessing through the organization of family festivals. There are many motivated and inspired blessed families, who are declaring the first stage of the Heavenly Tribal Messiah blessing of 430 couples. Each family has been going out into the streets, squares, institutions to give the blessing to numerous families.

To intensify the blessing events, Rev. Lee together with the FFWPU Bolivia president, Mrs. Hilda Claros de Jitto and all the regional leaders worked to make a manual for a Happy Family, with the idea to give a clear information about the importance of the Holy Blessing to people.

During the event, an invited guest mentioned, that after listening to the lecture, she understand better about the importance of the family could understand much better how her behavior should be before her husband and committed to practice everything she has learned. She thanked those who invited her; she also committed to read 40 times the manual for a happy family together with her husband.
