On that foundation the Blessing Ceremony was conducted.

Blessed families are creating a world in which we are all one family that receives and attends to God.

In 2023, this is the first time in Bolivia, first and second generation couple with international matching received the Sacred Blessing, in addition to 23 first generation candidates, and 3 previously married couples renewed their wedding vows, participating through the live internet transmission that took place on May 7th.

Determined to form model families for life, and with much gratitude to True Parents, this Sacred Ceremony took place.

We hope that these results will be the cause of joy in the face of the Only Begotten Daughter. Thank you Beloved True Mother!!!! We Love You!!!
