

WFWP Bolivia: Educational Circuit for Couples - *Architects Of Our Love*

Hilda Claros de Jitto
September 28, 2023

Uniting with the heart and desire of God and our true parents, we organized the third online educational circuit for couples titled *Architects Of Our Love* from September 25 to 28, 2023. Our aim was to support and strengthen the marital relationship among the couples.

These online workshops make the women's federation visible as an organization that promotes family unity and love.

This time the educational circuit covered the topics such as Crab Patterns Within Marriage, Roles of husband and wife, Full and healthy sexual communication, Jealousy, manipulation, and captivity within marriage.

The speakers were members of blessed families, Lic. Helena Da Silva, Lic. Sonia Turpo, Lic. Cesar Regalado, Lic. Mónica Vallejo, 2 of them UTS graduates who inherited their experience and knowledge in establishing good marital relationships based on the principles of love.

We had 78 participants including The social communicator, TV presenter Marcelo Terceros, who gave a thoughtful comment on the content provided and his desire to learn more about WFWP Bolivia activities. Also, the autobiography True Mother, the Mother of Peace was presented to him. Our event simultaneously, was broadcasted on our official Facebook page which many more people watched and will continue to watch later as well.

The daughter of a peace ambassador also delighted us with her song and thanked the WFWP for providing valuable teachings that helped them understand their role as part of a marital relationship.

At the end of the event, all the participants were grateful for this opportunity and requested to hold more similar events to continue reflecting and educating, especially about true womanhood.
