

## Condition for Mother's MSG event - Planting our flag, on top of Mount Shasta

Markus Von Euw  
June 6, 2017

Mount Shasta stands over 14,000 feet high. With True Parents' upcoming address at Madison Square Garden less than two months away, District 11 Witnessing Education Coordinator Markus Von Euw and his children, made a commitment to climb the fifth highest mountain in California.

Markus' son was able to reach the peak in 6 hours, while his daughter took 9 hours, followed by Markus himself, who completed the climb in 12 hours. Markus' son patiently waited for his sister and father, trusting that they would reach the top. When they were all finally at the peak together, the Von Euws planted the Unificationist flag, symbolizing victory for True Parents at Madison Square Garden. They gave a wondrous cheer of victory, believing in the success of True Parents' upcoming message, just as they had believed in each other to reach the top of Mount Shasta.
