

## Seminar about Marriage

Barcelona, Spain, June 17, 2018

By Artur Beshaj

Greetings from Barcelona!  
 Last Sunday June 17 we had in our center Ronda Barcelona the seminar with the theme "Growing in Marriage" with Manuel Campillo as lecturer.

Most of the guests were the couples who received the Blessing last December, also blessed families from our community.

Several topics were discussed, among the most outstanding;

- Meaning and Value of Marriage.
- How to be successful and be happy with our partner.

The program consisted of two lectures with a break in between, which gave us an opportunity to know each other better.

The reaction of the guests was impressive, and they were delighted, because they felt that our brother

Manuel does not speak from an intellectual point of view but from his own experience and the practical advice he has given.

The event was very educational and necessary not only for guests but also for our blessed families.

At the end of the seminar, all the guests have promised to participate in other seminars to deepen more on these topics.
