

YSP Brazil: Second 12-Day Workshop For The Young Second-Generation

Danilo Correa
July 23, 2023

With the aim of Education and empowerment of young people in the second-generation sphere in Brazil, we conducted the second national-level 12-day workshop at our main headquarters from July 12 to 23, 2023.

We wish to educate and empower young people who already have a mission, or who wish to contribute their skills and talents to providence. This time we had 24 participants.

This time, young people could choose one of the five areas available: Arts and Culture, Business, Character Education, Media, and the newest area, the Environment.

The program consisted of studies of the Words of True Parents, studies of specific content in their area, technical visits, practical activities, and the creation of projects. During the seminar, 8 projects were developed.

Youths have dreams and they are creative, and we hope to help them to find themselves, have a clear vision, and concentrate on working together with absolute faith, absolute love, and absolute obedience to create a better world for all humanity.

Participants went through all the steps of the workshop, and we hope they can become a protagonist in history, and through these developed projects, can actively contribute to the development of society, and spread the heavenly culture in every corner of this nation. In this way, the Kingdom of Heaven becomes a substantial reality.

We will continue our education program for youth, with the aim to reach more people and grow the number of youths to at least 100,000, so that we can work with more power as the heavenly soldiers to bring about national restoration by 2025.
