March 8, 2021

On the 8th March (Intl Women's Day) a number of women from Wales and the West Country, UK WFWP attended a Zoom conference organised by a charity called Mentor Ring. The organiser was the Chief Executive Officer who started this charity. One of my contacts introduced her to WFWP and she wanted to become a member. We have just found out that this woman used to work with Joan Simon, a long standing member of WFWP.

The conference consisted of nine women sharing their experiences in life, past and present. Most of them were professional ladies such as a consultant in the medical field, a doctor, and a lady serving in the Royal Air Force.

All women gave their life history. It was interesting to see the human side of these professional women, having families and hobbies etc. and one of the speakers was our WFWP National President, Mrs. Mitty Tohma who gave a brief testimony of her life, and had the chance to mention the Rally of Hope organised by the Founder Dr. Hak Ja Han Moon. The audience of 80 participants thoroughly enjoyed the meeting.

In the future we hope to have another such conference together with Mentor Ring!
