

Second Generation Seminar

Russia, Volga region, August 03-05, 2018

This seminar was organized by blessed families and CARP of Ulyanovsk. The place was outside Ulyanovsk (50 km) on the land of one of our blessed family. We made it from zero, on the plane nature.

The topic was "Following footsteps of True Parents". There were 18 children (1 child was a nephew, not 2-nd generation) aged from 7 to 13 years (school age) plus 16 adults, altogether 34 people. 9 people were from other cities (Samara, Saratov, and Chelyabinsk). We had various programs including morning exercises, hoondokhwe, lectures about True Parents life (different stories), tourist competitions, concert around campfire, fishing as True Father did, quest (to find places that True Father "visited").

It was high spirit, good unity in teams. Children liked seminar very much, also adults said they received more than they expected.
