

## First Steps to Reach Out to Russia's Koreans

*Yuriy Gavrilin - December 24, 2018*

On December 24, a brother and sister from Yekaterinburg participated in a pre-New Year celebration held by Ural-region Korean residents.

They took part in a quiz of 60 questions about Korea as a whole (North and South). Also they participated in a calligraphy contest. They wrote their names on paper flowers and hung them on two trees which were tied with a red ribbon (symbolic of the association of North and South Korea). They also sang songs: “Saranghae” as a duet with a guitar and “Hollo Arirang” all together.

Because a certain number of the Korean diaspora are not open to True Father, we will pray to find the right approach to improve our relations with them.
