June 5, 2019

50 elementary school children from Moscow, Moscow region, Nizhny Novgorod, Ulyanovsk, Saratov, Tula and Ryazan took part in it.

The topic of the seminar was related to the expectations of the True Mother that the 2nd generation should become the light of this world. And while the children are yet young, we compared them with fireflies. We taught that the light would come from their filial heart and respect for elders. We also talked about bad habits, curse words and deception that extinguish this light.

In addition to interactive lecture and talks, the workshop included many sports and entertainment games, a quest and thematic tasks. It helped children get to know each other better and make strong friendship.
