

## WFP-Jordan has been focusing on Education projects for needy children

Fusayo Irikuya  
October 24, 2020

Since 2016, WFP-Jordan has been focusing on Education projects for needy children (100 children in total) in needy areas, as their education level is so weak.

WFP in Jordan has many youth volunteers who have been teaching children (mainly Math, Arabic and English) at the centre every day.

Some of the activities that it provides in addition to teaching are cleaning projects and drama classes for the young children as part of character education.
