

Theory of Heavenly Unified Korea - Lecture at Peace Forum 12

Sung-Bae Jin
January 30, 2022

Today, Director General, Yoon Young-ho, said the program should be conducted centering on a successful report on Summit 2022. Therefore, I organized this lecture focusing on the issue of the country, the United Nations and the UPF, and the problems on the Universal Peace Federation.

First is to present the future of a unified Korea that focuses on Godism through what we call God, and the basic ideology of co-living, co-prosperity, and co-righteousness. There is a certain national idea called unified country. The question, "what is a country?" is raised. On February 23, just 10 days after our Summit Conference, Russia invaded Ukraine.

<News of the invasion, SBS video>

As we can see in the video, we see how miserable the devastation of a country's war is. Pensées said, "Justice without power is incompetence, and power without justice is violence". Ha Sung-won, the conductor of the Seoul Pop Orchestra in Korea, said that a few members from Ukraine were missing and when asked, one of them sent a photo of them wearing a military uniform from Ukraine. This is an example of Ukrainian members of a pop orchestra running to his country without having time to tell the conductor. Miss Ukraine is fighting and holding a gun. A 91-year-old grandmother, who survived Hitler, now holds a gun saying she cannot die. I am not talking about a particular candidate, but Yoon Seok-yeol said, the agreement showed that security and peace cannot be protected with just one agreement. Ukraine relied on the agreement and the Minsk Protocol. Oral agreement-based peace treaty has been proved by Ukraine's invasion that it is bound to be an empty prayer before actual force and cannot truly prevent wars. Yoon Seok-yeol met with former U.S. Vice President Pence in person at the peace summit. I think it is meaningful to convey to the Republic of Korea that former U.S. Vice President Pence, who represents the conservative party and the U.S. Christian Conservative, met with Yoon Seok-yeol. In addition, the peace summit is not just an internal and domestic feast, but it has the significance of changing the flow of a tremendous international situation that can have an international impact.

What is a country? What is a country in that the people of Ukraine want to go to war even risking their own lives? All beings basically have affection for their homeland, but all beings are said to exist for individuality and individual purpose that exist for the survival and maintenance and development of themselves. However, it can be said that it is a delinquent existence with a dual purpose that is aimed for the entire purpose. We exist also for the purpose and development of the country. All beings exist not only for the survival and maintenance of oneself, but also for the survival and development of one as a whole. I think patriotism and desire for our own country to develop originated from this.

An elementary particle has its own purpose of existence, but an elementary particle also exists for an existence of an atom. Atoms exist for a bigger purpose of the molecule, a molecule for the Earth, the earth for the Solar System, the Solar System for the Milky Way, and the Milky Way for the Universe. Then, the world of all things is directed at the whole purpose for human beings, and human beings for God. God is the whole of the whole, the subject of all subjects. We cannot help but recognize that the subject of all subjects is God. What we call co-righteousness and Hyo Jeong ideology tells us that "I" am not only

existing for my own survival and development, but that there is someone higher. Ladies and gentlemen, the rabbis of Israel wear a hat called the kippa, which means that there is someone above us. I heard that the people of Israel wear "Kippa" as a hat in order not to forget the existence of God, who is above me. "I" do not exist only for the purpose of my own individual, but I am an object partner for my subject partner above me, God, who defines my existence.

The other is the neighbors, which is a bigger whole than an individual. An individual is an object being in front of these neighbors and an individual purpose being in front of the whole purpose: family, race, ethnicity, nation, and world. From a vertical point of view, I am an object being before God, the subject of all subjects and the whole of the whole. Also, it is an object in front of the whole purpose of neighbors and country. These are the ideas of Hyo Jeong and Ta-ah, which is the ethical views of Heavenly Unified Korea. Therefore, we humans ourselves from the sake of God, heavenly parents and ourselves from the sake of neighbors. Husbands exist because of their wives, parents exist because of their child, and I exist because of my neighbors. You can say that it is neighbor that are a larger purpose than the object of individuals. Neighbors can be the 2nd Taja. This is co-righteousness. Co-righteousness is the ethic of Godism. With God as the subject, it is God, me, and my neighbor, the ontology of these three subjects, and the theory of joint ontology. Here, filial piety toward God, patriotism and loyalty toward neighbors and countries, and so on are part of Hyo Jeong idealism. It is a theory that through commands of consciousness, human liberation is received and achieved.

Co-prosperity is the political theory of our ontology. It talks about the existence of political relationship between the three bodies form in human dynamics. Brotherhood, Conservative and Progressive Parties. An individual is aiming for an individual purpose, and a neighbor is aiming for an overall purpose. Liberal democracy is a social ideology based on individuals for individual purposes, and socialism is a national ideology and social ideology formed on the basis of the whole, just like a country or class. It is our ontology because these things are not fighting, confronting, and conflict with each other, but with God as the center, I and my neighbors become one, brothers become one, the main party and the progressive party become one, liberal democracy and socialism become one, and the ontology of three subjects. With our ontology as the center, the political theory of the three subjects is co-prosperity. Therefore, it can be seen that the universal principle of conscience toward the individual purpose and the whole purpose is that between brothers and neighbors. Therefore, the state is the fulfillment of this vision of God and the completion of my own self. In other words, the model that resembles God the most is a country. The intangible God is not captured by any sense of man, but a country is one of the most basic models of God. It is human life to do the duty of filial piety to God and the duty of loyalty to our country. The life of a neighbor here is that a neighbor can achieve a clan, ethnicity, nation, and world, but its representative form is one entity, a social entity, in which God's ideal freedom is embodied.

As for the invasion of Ukraine, what is this? It is a Russian ambassador exercising their veto right at the United Nations General Assembly. The exercise of veto by one of the permanent members made it impossible for the United Nations to participate or intervene. That's one problem with the Brotherhood United Nations. China told Putin to wait for the invasion until the Olympics are over. So, after the closing ceremony of the Olympics, Russia invaded Ukraine. Dr. Hak Ja Han Moon is still very concerned about Russia, which still has a communist ideology from the Soviet Union, and China, a socialist. Dr. Hak Ja Han Moon is also very concerned and worried that the fate of the Korean Peninsula will be very difficult when North Korea is influenced by Russia and China.

If we look at the United Nations, it was founded in 1945 after World War II to prevent war and to promote world peace. The UN's original purpose is to pursue world peace beyond the national level. They are doing activities like peacekeeping, arms reduction, and international cooperation. If you look at the United Nations through God's Principles, World War I and II are a global confrontation between the view of Cain and Abel. The Korean Peninsula, which suffered the tragedy of fratricidal conflict, is also the third Israel chosen by God and the gateway to the start a peaceful world. Therefore, world peace cannot be achieved without peace on the Korean Peninsula. Peace on the Korean Peninsula is the starting point of the peaceful world and the position seen as the gateway is the basic interpretation of the Korean Peninsula from God's perspective. Therefore, both the United Nations and the peace on the Korean Peninsula should focus their top priority on the unification of the two Koreas.

Is the U.N.'s doing their job? They are not fulfilling his role. An example of the destruction of the order of world peace by veto, interests of their own country, and interests of great countries is what we saw a little while ago, the invasion of Ukraine by Russia. It is the limitation of the United Nations. It cannot overcome the limitations of emphasizing only interests and neglecting world peace. In this regard, Rev. Sun Myung and Hak Ja Han founded the United Peace Federation as an Abel United Nations on August 18, 2000. After that, on August 15, 2003, the Seoul Peace Declaration was made. On October 3, 2003, they declared the abolition the borders, and in 2005, established the Universal Peace Federation and proposed the Peace United Nations. The peace summit, which was held this time, can be seen as the starting point for a new paradigm that leads the newly gathered world peace order in a new dimension under the banner of the Abel United Nations.

The birth of the United Nations is essentially a monarchy in Europe, where there is no permanent peace, so Rousseau's insistence that world peace be achieved by a democratic rule of law led to the philosopher Immanuel Kant's insistence on a republic by this democratic rule of law. If a democratic state becomes a democratic despot without separation of legislative and executive branches, it is no different from a despotic state, so it cannot achieve permanent peace unless it is a republic that separates legislative and executive powers. This is where the theory of permanent peace is based. The basis of American foreign policy is democratic peace. This theory of permanent peace, which Kant advocated, says statistical data demonstrates empirically that it promoted peace over despotism. Now, as the basic ideology of the United Nations, Kant's theory of permanent peace, which we have completed the modern Enlightenment, is basically the basis for the birth of the United Nations.

Let's look at Kant's conscience and the basic position of the United Nations and UPF. To put it simply, Kant's conscience, moral laws, categorical orders, and sources of conscience were viewed as practical reasons. The order of reason, which is the source and order of conscience, is a moral and definite order. It's an order that allows our own individual actions to be universally valid laws. It's asking you to act the same way when you're alone or when you're with multiple people. It is a categorical order to ask you to act with your heart in confidence. That's a moral imperative. The source of the order is reason. The reason is to choose freedom. Kant's order is the ethics of duty under these moral laws. Kant's theory of permanent peace is applied to the basic political scene of the United Nations, world peace, and permanent peace. The United Nations must go through that form of republication, not despotic monarchs, where the universal principle of conscience applies to the world. It's the union of republics that is governed by universal moral laws called world peace, world civil law, public law. This is the League of Nations by Kant, now the United Nations.

Then the position we see in Godism is different from this. The ideological basis of the Heavenly Peace Alliance is to see that the basis of human conscience is not reason but emotion. Conscience is what I see as an order of mind based on the feelings of heaven's parents. Logos, moral laws, and natural laws are orders based on these feelings. Therefore, Kant's ethics are the ethics of duty that can only be followed by force, even if you hate it, but the moral law of Godism is the ethics of joy. It is the joy and joy of human life obtained through the commands of conscience and mind, just like the joy of obedience according to the words of parents and their love. This is the source of conscience. The source of conscience is not reason, but emotion.

This is Heavenly Parent's shimjeong. Therefore, human righteousness is to make conscience a parent and a teacher. This is the idea of the three main subjects and the co-righteousness.

What is wrong with Kim Il Sung's Juche ideology is a false ideology and philosophy that has ambitions on the Korean Peninsula through false parents. Instead, UPF is a horizontal connection between master and servant relationships based on human's original conscience and one vertical life of joy. It's not just a republican union, it's a public democratic union, it's a brotherly democratic union. It is basically the ideological framework of UPF before God and the world. Ultimately, perfect permanent peace can be achieved not by ethics of duty based on reason, but by public opinion based on emotion, beyond republican union, public democracy, brotherhood, and one fundamental framework. This is the basic ideological and ideological basis of UPF. Therefore, the importance of the UPF, Abel UN, in the ideological, political, and diplomatic sense as a fundamental movement for peace in the new future world is highlighted.

This time, Prime Minister Hun Sen met President Moon Jae In. President Moon welcomed Hun Sen out of the many former prime ministers, at the Blue House. At that time, Prime Minister Hun Sen told President Moon that he attended UPF Summit 2022 organized by Dr. Hak Ja Han Moon, although there was an Asem meeting and also plan to visit the U.S. United Nations. And he told President Moon about Dr. Moon's basic peace movement in detail. How amazing is it to say that he attended Dr. Han's UPF Summit 2022 without attending the U.N. General Assembly? The history of Yahweh God, who touched Prime Minister Hun Sen, opened the horizon of a new future world as a framework for a new peaceful world. It was talked a lot through Yoon Young-ho, the general director of the headquarters. Now, this picture is quite symbolic. It's an amazing picture. Isn't it a miraculous picture? Dr. Han is at the center, and President Ban Ki-moon, who represents the right, Vice President of the United States, Secretary of State Pompeo, Trump, Abe, and other world leaders are next to her. This is a miracle. I won't elaborate on this World Summit 2022, but summarized in a word, it is a miracle. It was embodied as a world summit centered on Dr. Han, based on the revolution of conscience. You can see it like this. A million rallies were also held.

During the celebration after the World Summit on the 11th and 12th, I offered three books to Dr. Hak Ja Han Moon. These three books are in English. It's a book presented to world leaders. When offering the books, Dr. Han told me to give the first book to Hun Sen, to educate him and other leaders. Before the release of the Korean version, the English version was published with the hope that world leaders would flock to the Peace Summit and that the Korean Peninsula would be the starting point for world peace. The first book is the idea of unification, the end of communism, and criticism of Juche ideology. This is a historical achievement and the providence of Director Lee Sang-heon. Because of The End of Communism, communism was destroyed, Communism was closed. It's not just political and diplomatic, or missiles, that ended communism. After all, there is also a victory movement that Dr. Han ordered. This is a declarative communist critical movement that says it has no choice but to end. The victory movement was to sink Russia. It was the idea of unification, the end of communism, the critique of Juche that played a decisive role in sinking South Africa and sinking South America.

The second book is the idea of parents presented by Dr. Hak Ja Han Moon. Chapter One is God, Chapter Two is Human Beings, and Chapter Three is The World. It's very bold. God is True Parents God in dual characteristics. The second chapter is Human Nature, True Parent. The theory of God is the theory of True Parents God and Heavenly Parents God. The third Chapter's theory of the world is the theory of the Cheon-il guk and the ideal world. Until she ordered this, I focused on the events, summits, and conferences that were connected. This is a content that can educate and spread around to the world through national education.

The third book is Theory of Heavenly Unified Korea, which I am going to talk about today. It is in 10 chapters. Chapter 1 is the Korean people and their historical meaning. Chapter 2 is open nationalism. Chapter 3 is Why God's Principle? Chapter 4 is the Korean Peninsula, and who is the subject? Chapter 5 is Peace Essentialism and Denuclearization. Chapter 6 Principles of co-living, co-prosperity, and co-righteousness. Chapter 7 shows the liberation of human beings from the two Koreas and the Heavenly Unified Korea. Chapter 8 is Cultural Revolution and the Heavenly Unified Korea. Chapter 9 Seeds of Unification: One God, One Religion. Chapter 10 deals with the path of unification and the world of peace.

I'm running out of time, so I'll just tell you the bottom line. What is God, who is God? In Christianity,

God is defined as a transcendent absolute taja, a pure spiritual entity. Juche ideology is that the leader is father, Kim Il-sung, who will be with them forever. The leader endows the people with social and political life. The father leader is seen as a divine being. This is a false parent. The spiritual reality of Christianity, the transcendent absolute taja, and the father leader of the Juche ideology define a false god, so they cannot understand God fundamentally. God is God as a parent and a true parent. It stipulates that God is embodied through true parents.

This is a diagram that you've never seen before. God created Adam and Eve. But God's was not fulfilled. So, it is Jesus Christ who came as second Adam. He came as the begotten son. However, Jesus couldn't marry and fulfill the purpose, so he said, "I will come back again". It is True Parents who came back and achieved that goal. Rev. Sun Myung Moon became a True parent with the mission of the second Advent and the dignity of a father. We cannot live forever without being blessed through our True Parents. The last thing Dr. Han said to world leaders and presidents this time was that world peace cannot be achieved without making a family through True Parents. She concluded that world peace can be realized only when the source of world peace serves as a blessing family with True Parents. Then if Dr. Moon was able to become a True Parent with a dignity of a father, there needs a begotten daughter. Shouldn't a begotten daughter come, right? Then, in order to achieve the will of Jesus, who was born alone at the time of Jesus, but failed to marry, a begotten daughter must come and become a True Parent. Who is a begotten daughter? I think we can understand if we understand the basic logical position that logic says A is A, and A is not A.

While watching World Summit 2022, I asked myself, "What is a miracle?". All the leaders of the world were together, centering on the Mother Moon, who God has defined as the begotten daughter, the mother of the universe. On the left was the Prime Minister of a once communist country Cambodia, Hun Sen. On the right was the United States former vice president Pence, Pompeo, and former President Trump. The fact that the world's leaders on the left and right with True Mother at the center can be seen as the robbery on the right and left at the time of Jesus' crucifixion. It is the World Summit that focuses on the Dr. Hak Ja Han Moon, who came to be the only begotten daughter and the mother of the universe on the global peace line. The liberal democracy and socialist communist country on the left and right are united to develop a new global peace movement. Can you deny this? It's a model of Cheon-il guk. The Christian say churches is the body of Christ. Cheon-il guk, the ideal country of God, is a country built on the body of the True Parents. It takes a lot of time to talk about this. So now the Heavenly Unified Korea is one country. The Heavenly Unified World is one world. One motherland and one world, Godism is based on the True Parents, and only one of them is left on earth now, right? It is a time when the world can unite as one from side to side, centering on True Parents who came as the only begotten daughter and the mother of the universe. Liberal democracy and socialism, progressive and conservative, all of which are divided, hateful, and fight in the land, but in the world of God's heart and true love, and in the world of parents' heart and love, progress and conservatives become one. This is a miracle, and I will end today by telling you that Korea's mission is the gateway to world peace, and it remains as a starting point for world peace.
