IAYSP-Hungary, in collaboration with the College of Advanced Studies for Diplomacy in Practice, organized a program called "Responsibility of the UN in peacekeeping" on 4th of May 2021.

The online event mainly focused on discussions between participants on this matter. The guest speaker, a professor from the National University of Public Service, introduced the topic to the participants (university students) prior to group discussions.

It's safe to say it was a great success amongst the 30 students or so.

IAYSP-Hungary is looking forward to working further with the Collage of Advance Studies for Diplomacy in Practice to conduct more topical discussions in the future.
