On September 20 we held the conference "Peace starts with me" on the occasion of the Day of Peace. We organized the first offline public event since March 2020 after COVID-19 epidemic began in Moldova. About 30 people from various fields of endeavor from all over Moldova gathered including members of Parliament, media representatives, high school students and teachers.

We were very happy to launch on this day the Centenary Exhibition dedicated on the life and work of True Father and True Parents' 60th Holy Wedding anniversary. Members of Parliament, media representatives and youth that on this day received certificates of Ambassadors for Peace shared how they felt more responsible to promote peace starting from oneself.

Mrs. Lidia Viziru, member of the Audiovisual Council of RM, particularly touched our hearts when in her speech she quoted True Mother's speech from the Albania Summit 2019 about humanity finding true peace only by returning to our Heavenly Parent and mentioned that it touched her deeply.

In addition, the program included recognition of 52 young people from all over the country involved in three YSP projects including 6 young people awarded as winners of the essay contest "Peace starts with me" based on True Father's Autobiography. As people sincerely shared their thoughts about peace, the atmosphere became very warm. A major TV company also broadcast an excellent report.
