*"Jesus could not have a family. Therefore, you need to have a family, and to do so you need to have a tribal foundation. Without a tribal foundation you cannot have a family. Your family should stand as the center of your tribe. Only when there is a tribal foundation can there be family salvation."*

By Rev. Dr Sun Myung Moon

It is on this Thursday 29th of October 2020, at the Adagom 1 refugee settlement [for refugees from Cameroon] that these persons gathered and received some important education on the theme: God's Will and I.

This theme is very interesting as it reminds the audience about their purpose of being created. It did reveal to most of them the necessity of becoming more responsible in their life of faith in God and the rendering the world as one family under God. The workshop also revealed the wonderful works and the indelibility of the true parents foundation as a model in doing God's Will.

It was very encouraging as many found the interest and determination to get very involved in the works of the True Parents as a way of life.

In this way, I could see the other side of searching ardently for people to build God's family.

I give all thank to our Cosmic parents, True Parents and all of you out there. Aju!!
