Andrew and Marie Derricutt of Harrow, Middlesex recently put up a sign in their window to show they are the "World Peace and Unification Sanctuary, Headstone Church".

Today, March 27, they decided to follow Hyung Jin Nim's lead and go out to a local shopping center and be God's channels for people who needed prayer. The following is the report from Andrew.

"We didn't get any photo or movie record of this but we did from 16:10 until 17:00 today.

"I was taken by surprise at the incredibly strong emotional experience that I had after praying for the first person who was a gentleman about same age as ourselves. I almost couldn't pray for tears.

"We prayed for about 7 or 8 people and about a third to half of those we asked agreed. We did it in Harrow shopping centre where there were many market stalls today. It was a good experience and we'll try again next Friday to be channels for God."

Praise God!
